

REMARKS

Further consideration of this application is requested. By the present amendment, an additional claim has been added. This claim is patterned after Claim 90 but in the last paragraph thereof it refers to posterior movement and anterior movement rather than posterior deflection and anterior deflection. Throughout the application, reference is made to either movement or deflection with regard to the lens and, accordingly, it is desired to have a claim specific to posterior and anterior movement.

Favorable consideration of this application is requested.

The Commissioner is authorized to charge Counsel's Deposit Account No. **150665** for any additional fees that may be required and to credit any overpayments to said Deposit Account **150665**.

Respectfully submitted,
